

March , 2020

Dear Neighbor,

I hope you and your family are safe and healthy during this trying time. I'm really feeling the pinch from this COVID-19 situation. I've lost my job and cannot afford to pay April rent. I'm writing this letter to see what your situation is like. We share a *landlord/neighborhood/block* and I'm hearing that lots of people are encouraging the government to suspend rent for the duration of the outbreak and asking that landlords forgive or suspend at least two months of rent.

If you're interested in talking about how we can collectively organize as a neighborhood to cancel rent April 1st, please contact me at: (555) 555-5555 or by email at rentstrike2020@hotmail.com.

I have a lot of free time right now. I am a *house painter/dog walker/magician* by trade, if you need any help during this difficult time, please let me know. It's times like these that we need community more than ever. So reach out and let's build one towards a shared refusal to pay April's rent?

We will get through this together.

Your neighbor,

So and So
